

A Fresh Coat. A New First Impression.

YOUR PRE-MARKET PAINT GUIDE

Find your palette. Focus your touch-ups.

Bring a fresh, cohesive feel to your home.

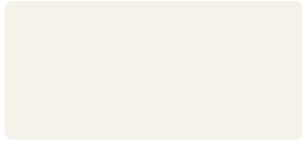

Inside: neutral tones, sample-testing tips
and a simple checklist before you paint.

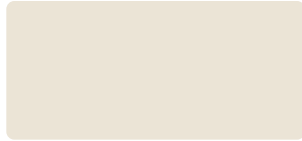

Choose with confidence.

A simple approach to refreshing your home before listing.

A CALM STARTING PALETTE

Soft white

Warm ivory

Light greige

Soft taupe

Illustrative tones only. Use physical paint samples to choose your color.

01 Start with what stays.

Compare samples with your floors, cabinets and countertops.
Look for a tone that works with the existing finishes.

02 Test it in your home.

View large samples on more than one wall, morning and evening.
Check them with both natural light and your room lighting.

03 Refresh where it matters.

Review scuffs, patched walls and highly personalized colors.
Discuss touch-ups versus repainting with your BP Realty agent.

04 Choose the right finish.

Consider the surface, room use and the paint product instructions.
Prepare surfaces properly; match existing paint for small touch-ups.

BEFORE YOU BUY

- ☐ Confirm the color and sheen with physical samples.
- ☐ Agree on the rooms and budget before starting.
- ☐ Allow drying time and ventilate according to product directions.
