Light greige

Repose Gray

SW 7015

Soft gray

Balanced Beige

SW 7037

Deeper warm neutral

Evergreen Fog

SW 9130

Muted green-gray accent

WHY A COHESIVE PALETTE?

A consistent palette keeps attention on the layout, light and finishes.

Soft whites and light greiges offer a quiet backdrop for different furnishings.

Warmer beiges can work with warm flooring; muted green adds gentle character.

The best choice depends on what stays: cabinets, counters, floors and trim.

Test samples in your rooms before deciding what to repaint.

Illustrative colors and photos. Confirm with physical samples before painting.
